Calgary Is En Fete

Frontier Days' Celebration Draws
Thousands of People To Al-
berta's Metropolis

The frontier days' celebration at Calgary this week is proving to be the greatest event of its kind ever held in Canada. It is estimated that fully 40,000 people have visited the city from all over the American continent, and all hotels are taxed to their fullest.

The opening feature of the Stampede was a monster street parade held on Monday morning when a procession headed by one thousand "first Canadians" and representing trades unions and labor, headed through the main streets towards the fair grounds. The procession was the largest ever witnessed on the continent, and crowds mounted to the roofs and piazzas of the tallest buildings of the city in order to get a good view of the great parade.

At the fair grounds, besides the grand stand, a number of stands had been erected with a seating capacity for twenty-five thousand, all of which were taxed to accommodate the great crowds, while many were obliged to occupy standing room around the fences for a afternoon.

The steel roping, bull-dogging, bucking, horseriding, fancy riding, fancy roping, etc., were the chief attractions, the bulk of the competitors being prize winners from Oklahoma, Texas and New Mexico, Alberta herself being very poorly represented, and as a result most of the prizes will go out of the province.

On Wednesday forenoon the arena was crowded to witness the great championship boxing contest between Billy Allen, the ex-champion, and Joe Bailey, the recent donner of the championship belt. The bout lasted but three rounds, at the finish of the third, Allen taking the count from the knock-out, thereby further fastening the championship title upon the redoubtable Joe Bailey.

Today's (Thursday) programme will begin with another great street parade, which will be witnessed by H.R.H. the Duke and Duchess of Connaught, after which the regular sports will continue at the exhibition grounds.

The city is handsomely decorated, streams of bunting and tri-colors waving to the breeze everywhere. The city hall is aglow with electrical brilliants and is attracting considerable attention. The C.P. Railway depot and other important buildings are also brilliantly illuminated.

Monday's procession was several miles in length, Trades unions were represented by upwards of 1200 men, together with their respective floats. The Indians formed the most attractive part of the procession, exhibiting the handsomest costumes ever witnessed in Canada, bringing back to today representations of the great chieftains of the early centuries.

Methodist Church District Meeting

The Financial District meeting of the Macleod district of the Methodist church was convened in Claresholm on Tuesday evening of last week, concluding its session at noon on Wednesday.

The chairman of the district, Rev. J. M. Harrison, of Claresholm, presided and the attendance was very large, including every ministerial member, also student in the district, and most of the lay representatives.

The usual business of the meeting was transacted with expedition and when the requirements of the several missions in the district came under consideration it was noted with much gratification that with scarcely an exception, they had raised the standard of local support, and in the case of Bellevue, a very difficult mission among the miners, they had voluntarily assured the active support of an ordained man.

Extended consideration was given to the problems associated with the work among the foreigners in the Crows' Nest Pass, where the work among the Italians has been given over to the Methodist church. Reports presented indicated most substantial gains in this peculiarly difficult work. Thanks principally to the splendid work of the two very capable and specially qualified men who are in charge, Revs. W. H. Irwin, at the Lewis, and W. F. Young, at Frank.

Visitors to the session were Rev. Mr. Marr, the recently appointed general secretary for Alberta for the Canadian Bible Society, Rev. C. H. Huestis, M. A., Western Secretary of the Lord's Day Alliance. The Macleod representatives were Rev. E. S. Bishop and W. G. Andrews.

Macleod Presbytery

Macleod Presbytery met at Macleod, Wednesday, August 28, for its semi-annual meeting, at which the Home Mission reports were the main item of business. These fields were all well manned this summer, but owing to the scarcity of men, many of them will have to be without supply this winter. The Presbytery listened also to the reports of the commissioners to the General Assembly.

Among matters of business that came up was the settlement of the Lundbreck and Hillcrest question. It was decided to sanction the removal of the Presbyterian missionary from the latter, leaving the work entirely in the hands of the Methodist church. A committee will look after the matter of property. For the present the church will be used by the Methodist church.

A church building committee was appointed to look after the interests of all the churches south of Lethbridge, where there has been difficulty in getting particulars regarding the title deeds.

When the question of vacant charges came up, some time was devoted to those in The Pass. The moderator in charge of Blairmore will be asked to urge for an early settlement, since it appears that a minister is available. Rev. Mr. Baaton, of Blairmore, was asked to get in touch with Little, to learn the conditions there, and to arrange for whatever work it may require.

Murder At Calgary

Special Policeman Is Found Lying
In Gore In The Railway Yards
No Clue To Perpetrator.

Calgary, Sept. 4.—Special policeman Robert G. MacIntosh of the Canadian Pacific railway was murdered about 10 o'clock tonight, presumably by tramps in the C.P.R. yards.

MacIntosh was found lying in the shadow of some box cars about five minutes after the shooting, unconscious, with his revolver still tightly clamped in his right hand.

All chambers of his gun were loaded. The assassin's bullet entered the right side under the arm and passed through the body.

The unfortunate man died without regaining consciousness.

The police have absolutely no clue to the identity of the murderer.

MacIntosh was about 25 years of age and has a wife and two children in England.

Special Rates

For Exhibitors

The growing interest in the International Dry-Farmed Products Exposition at Lethbridge, Alta., next October, assures the largest exhibition of grains, grasses and root crops, farm machinery and implements ever held in Western Canada, and probably the largest of its kind ever held on the American continent. Applications for entry forms have been received by Chairman MacNicol, of the Exposition committee from nearly every quarter of the globe, and advice through diplomatic sources are to the effect that nearly all of the South American countries, Australia, Hungary, Turkey, Russia and the United States will send federal exhibits. It is stated that the United States exhibit will eclipse anything that has ever been undertaken by the department of agriculture, while the Dominion of Canada will collect and stage an enormous sized exhibit of the products of the soil from the experimental farms and the fairs, and the provinces of British Columbia, Manitoba, Saskatchewan and Alberta will have exceptionally large and interesting displays.

Throughout Alberta and Saskatchewan great interest is being manifested, and in many sections the farmers have arranged for and carried out this spring and summer a system of plots, by which each man raises something different than his neighbor on one square rod, and pay particular attention to the product with a view to having the very best possible to be grown. In Saskatchewan the department of agriculture has been very active in encouraging the farmers to make an extraordinary provincial exhibit, as well as district exhibits, and the Saskatchewan commissioner, Prof. H. N. Thompson, has applied for 10,000 square feet of space, and served notice that his requirements will, without doubt, exceed this in view of the large number of farmers who are preparing individual exhibits.

any extent, for there are scores of grain growers in that province who are looking with wistful eyes at the premium list and making plans to capture the valuable farm machinery and implements offered. British Columbia is collecting the largest and finest exhibit it has ever planned to stage, and while it will not compete in many of the classes, being desirous of showing that courtesy to exhibiting states and nations, it will put before the eyes of the delegates a sight long to be remembered in its display of fruit, and the decorative work of its booths through the use of natural woods and minerals for which the country is famous.

The exposition opens on Saturday morning, Oct. 19th, and every exhibit will have been judged and all prizewinners announced by that time. Exhibits must be in place ready for judging on the evening of Thursday, Oct. 17th.

Three Drowned

Near Gainsford

Edmonton, Sept. 3.—Three lives were lost in Island lake, near Gainsford on the Grand Trunk Pacific railway west of the city, in a heavy squall, which sprang up on Sunday afternoon at five o'clock swamping the boat in which four Edmonton people were rowing on the lake.

The dead are: Robert D. Elaset, formerly south side, and his five-year-old daughter Bessie and Mrs. Johnson, of south side, Johnson, who was the fourth party in the boat, was rescued by two Rathenians who witnessed the tragedy. The other three did not come to the surface after sinking for the first time.

Blairmore, Alta., Thurs., Sept. 5, 1912

Labor Day

It is some twenty years since

the first Monday in September

was set aside as a legal holiday

in Canada. The practice was

adopted from the United States.

It owes its origin to the

Knights of Labor, an organiza-

tion which was very active in

the eighties but which has sunk

into obscurity of recent years,

largely the result of dissensions

in its ranks which led to the

formation of the American

Federation of Labor.

The first state to choose

this particular date as a holiday

was devoted to celebrations

on the part of organized labor

was Colorado. All the others

have, with two or three excep-

tions, followed suit. Canada

accorded to the request among

the earliest.

There is no indication of any

cessation of the enthusiasm

with which the holiday is ob-

served. The impression which

is made each year in the larger

centres by the processions of

the men engaged in the differ-

ent callings has undoubtedly

done not a little to make the

general public realize what a

powerful force organized labor

has become. Fortunately, there

has been no tendency at any

time to celebrate in any but the

most orderly manner. In this

respect there has been a great

contrast to the old May Day

disturbances in Europe, and

the cause has not suffered by

reason of the fact.

And now the C.P.R. begin to

promise that the Crows' Nest

Pass will be the through route

to the coast within a year.

Sounds good to us!

A report appears in the Ed-

monton papers this week

regarding the Turtle Mountain

slide, saying that another big

slide of rock occurred, doing

damage to buildings and property.

None of the residents of the

town are yet aware of such an

occurrence, and request that

the dreamer take another

snooze!

On Saturday last the seat of

customs was moved from Frank

to Blairmore and has taken up

respectable looking quarters in

the Budd block. For some time

agitation has been rife between

the different towns of this sec-

tion of The Pass for the estab-

lishment and centralization of

this important government

office, and the decision to locate

in Blairmore meets with popu-

lar approval.

Coopers Used Sixty

Million Feet in 1911

The value of the material used

in the slack coopeage industry in

Canada in 1911, according to fig-

ures prepared by the Forestry

Branch Department of the interior

was \$1,465,702, or about \$130,000

less than the value in 1910. The

amount of material consumed,

as far as can be accurately

determined, is estimated at 62,353,

190 feet, board measure.

Ontario leads in this industry

with the production of 64 per cent.

of the total number of staves 70 per

cent. of the heading and 76 per

cent. of the hoops. Nova Scotia,

with a large proportion of Bel-

barrs, was next with 29.24 and

20 per cent. respectively, of the

total number of staves, heading

and hoops. The other provinces

produce very limited quantities.

Imports exceed exports of \$185,

493 by \$104,529. White Oak

staves form an important part of

the imports, numbering in all 7,

292,000, where as 2,768,000 were

cut in Canada. The Canadian

supply of oak which alone is suit-

able for the manufacture supply

of containers for alcoholic beverages,

is so nearly exhausted that this

branch of the tight coopeage

industry will practically cease in a

few years.

The cost of materials for slack

coopeage averaged as follows per

(thousand pieces, \$6.91; heading,

(sets) \$54.77; hoops, \$7.62. Fig-

ures on the cost of tight coopeage

materials were not available.

Alberta is First

Edmonton, Alta., Aug. 28.—Alberta,

the youngest province in Canada, is

the first to comply with the condi-

tions of the Dominion act respect-

ing juvenile delinquents, which will

come into operation as soon as possi-

ble after the order in council and

the certificate of the provincial at-

torney general are entered at Ottawa.

Authorities on the subject of child

delinquency, including Judge Lindsay

of Beaver, Judge Mack of Calgary

and Judge Adams of Cleveland, declare

this will complete the best series of

measures for the rescue and protection

of children in force anywhere on the

American continent.

The act, which was introduced into

the Dominion parliament through

the efforts of W. L. Scott, a barrister

at Ottawa, and assented to in July,

1908, extends the principles that have

been applied to the delinquent and

neglected child in Alberta since the

adoption of the Children's Protection

act, passed by the provincial legisla-

ture.

The preamble of the Dominion act

fully sets forth the spirit of remedial

legislation in the interest of children,

as follows:

"It is inexpedient that youthful

offenders should be classed or dealt

with as ordinary criminals, the wel-

fare of the community demanding

that they should on the contrary, be

guarded against association with

crime and criminals and should be

subjected to such care, treatment

and control as will tend to check

their evil tendencies and to streng-

then their better instincts."

Disassociating the child offender

from all criminal law is the primary

idea throughout the act. The term

"child" applies to a boy or girl ap-

parently or actually under the age of

16 years. This designation permits

those who have authority to enforce

the act to use their own discretion

in regard to a child which the parents

might maintain has reached its six-

teenth year, but which may obvious-

ly be in need of such protection as

the law gives, though it applies

chiefly to children whose exact age

cannot be determined.

The law provides for dealing with

offending children summarily in

courts where the proceedings are

private. It is unlawful for any new-

paper to publish the name of the

child or parent or guardian without

special leave. Courts to be held where

adult offenders are being tried and

the child awaiting trial must not be

placed in a jail or other place where

adults are or may be imprisoned.

The children's court may be directed

of the customary majesty and

right formality, which usually attend

the administration of justice in the

tribunals of record. A provision of

the act, dealing with this point, says:

"The proceeding may, in the discre-

tion of the judge, be as informal as

the circumstances will permit." The

testimony of a child may be received

though not given on oath, but such

evidence, uncorroborated, is not suf-

ficient to convict a person.

Several means are provided under

the act for the child proved to be a

juvenile delinquent, but the action

taken must in every case be that

which the court believes to be for

the child's own good and the best

interests of the community. The offender

may be fined, or placed under pro-

bation either in its own home or with

a suitable family, or committed to the

charge of any duly organized child-

ren's aid society or the superintendent

of neglected and dependent children.

It is also provided that a child

over the age of 12 years may be com-

mitted to an industrial school, but it

shall not be lawful to commit a child

under 12 years, "unless and until,"

to quote from the act, "an attempt

has been made to reform such child

in his own home," or in the ways

named in the foregoing paragraph.

Another section provides that the

expense of maintaining a child in the

industrial training school may be

collected from the parent or guardian

in the event they are able to pay.

The idea is to prevent any one from

swearing his charge is intractable

in the hope that the child will be sent

to an institution to be fed, clothed

and educated at the expense of the

province. The penalty for an adult

who either wilfully or through negli-

gence, contributes to a child's delin-

quency, is as high as \$500 a year in

prison.

The judge of a juvenile court is

given the power of two justices of the

peace or a stipendiary magistrate.

The position is an honorary one and

the selection will take into considera-

tion the special qualifications of the

person to be appointed for dealing

with children. Probation officers

Happenings in and Around Blairmore

F. M. Thompson Co. concluded their mammoth sale last week.

Mr. and Mrs. S. Thorneycroft left for Calgary on Sunday night.

Mrs. Purvis and Miss G. Purvis returned from Calgary on Wednesday.

V. Lemieux returned Saturday from a two days' fishing and threshing trip to the prairies.

E. L. Crane, foreman of the "Enterprise," paid a visit to Macleod on Saturday, and returned to town Monday.

F. M. Pinkney, who had been confined to his home over a week through illness, is about again.

The Bellevue brass band attended the lawn social on Saturday evening and discoursed music that made even the pie fly.

J. R. Palmer, of Lethbridge, who has just returned from an extended trip to the Old Country, spent Wednesday with friends in town.

Among the exhibits at The Stampede we notice a man without arms or legs, and an animal with short legs on one side, probably a Guzzuk.

FOR SALE—Typewriters for sale. Almost new. In perfect condition. Will sell cheap for cash only. Apply to "Blairmore Enterprise."

Rev. A. S. Tod, formerly of First Presbyterian church, Blairmore, is officiating at the Presbyterian church, Fernie, during the month of September.

Labor Day was not observed in any formal manner, most of the pleasure seekers going out to Calgary, Hosmer and elsewhere to spend the day.

FOR SALE OR RENT—Two-roomed house, suitable for boarding or rooming houses. For particulars apply to L. H. Putnam, Blairmore, Alta.

If you know of the real value of Chamberlain's Linctus for lame back, soreness of the muscles, sprains and rheumatic pains, you would never wish to do without it. For sale by all dealers.

Charley Roy returned to town last week after six months' absence, during which time he has visited all places of importance on the Canadian Pacific coast.

The sermon subjects in the Presbyterian church on Sunday will be as follows: In the morning, "The Doctrine of God," and in the evening, "The Two Sauls."

A small crowd turned out on Friday to hear Rev. G. H. Huettig speak on the Lord's Day observance at the Central Baptist church. A local branch of the Alliance organization was formed.

A large crowd attended "Tip Van Winkle" at the opera house Wednesday night and all speak well of the classy work of the entire company in their presentation of "Dear Old Rip."

J. F. Smith, who last week closed a big sale for the E. M. Thompson Co., is making arrangements to put on a big sale for the Coleman Mercantile Co., at Coleman. Particulars will be announced later.

The opera house is the attraction every other night, where Harry Travel's moving picture shows, coupled with the excellent piano accompaniment of Mrs. L. Thorne, are proving a source of popular entertainment.

J. A. McIsaac, barrister, who arrived in Blairmore from Nova Scotia early in July month, has decided to seek broader fields and left for western points on Saturday, taking in the "Stampede" at Calgary en route.

Owing to the great number of children enrolled at the Blairmore public school at its fall opening last week, it was found necessary to add a sixth teacher to the staff. Miss John, of Winnipeg, has received the appointment.

Ernest Hinds spent a couple of days in Calgary this week.

H. E. Lyon went down to Calgary on Tuesday to attend the Stampede.

D. C. Brain returned from the South Fork Monday, having had several days' good fishing in that vicinity.

H. G. Bigelow and J. M. Beaton went to Calgary Wednesday, to be present at the ducal reception and stampede.

The lawn social and supper given by the ladies of the Presbyterian church at the Mission hall Saturday evening was well attended, and fifty dollars was netted, which will go to strengthen the new church building fund.

The local baseball team should arrange for a return match with Macleod, to be played on the local grounds. We understand that the vacancies in the Macleod team have been filled by some good men, so the game might be interesting.

Rev. Mr. Beaton has been chosen to go to Calgary for meeting of committee arranging for Presbyterian Young People's Society Convention which is to take place on November 11 and 12. Incidentally will take in the Stampede.

L. H. and Mrs. Putnam, J. Freckburger, W. A. Beebe, M. Rosse, J. W. Gresham, W. Ayres, H. M. Bennett, J. Porke, H. Raymond, G. W. Beard, James and Mrs. Burrows were among those who attended the Stampede from Blairmore.

The Central Baptist church will hold its Anniversary Concert on Wednesday, Sept. 18th. A number of those who sang at the contest in Coleman last year have promised to be present. A good and varied program is being prepared. Other announcements will be made later.

At Central Baptist church on Sept. 18th at 9:30 a.m., Norman Scott Macleod and Winnifred Jessica Hinton, both of Pincher Creek, were united in marriage by Rev. J. F. Hunter. The newly married couple immediately took the Soo flyer for the coast. They will make their home in Pincher Creek to which place they will return in two weeks.

Rev. J. F. Hunter concluded his sermon on What Do You Think of Yourself? last Sunday night with these words: "You have room for dances, balls, cards and teas, for lunches, dinners, midnight suppers and senseless vapourings, for business legitimate and illegitimate and no room for church. What do you think of yourself? Yes, you have room for creeds and forms, ceremony and even church, and yet have no room for Christ. What do you think of yourself?"

During the week Calgary has acted host to many people desiring to see the Stampede. Men from different provinces, states and countries have been giving an exhibition of their nerve and skill. The distinguished vice-roy, the Duke of Connaught, was present to lend dignity to the scene. Come to hear about the Great Stampede of the future at the Central Baptist church next Sunday night. Come in the morning too and you will hear about a set of robbers who were robbed.

The following guests registered at the Blairmore hotel this week: Sunday—W. McLean, Ottawa; W. H. Timleck, Brockville, Ont.; F. W. Timleck, Macleod. Monday—E. Drury and C. Mirdock, Cowley; A. W. Thomas and wife and Mrs. H. A. Moseley, Lethbridge; J. Hall, Pincher Creek; C. M. Breteau, Vernon, B.C.; G. Parker, Calgary; H. B. Elliott, Toronto. Tuesday—W. G. Dreple, Calgary; T. Lamb, Edmonton; A. F. McComb, Fernie; Leslie Hill, Nelson. Wednesday—H. H. Johnson, Collingwood, Ont.; L. Greenberg, R. F. Smith, Winnipeg; John D. McKenzie, Ottawa; D. E. Carman, Vancouver; C. F. Blacklock and H. H. Rogers, Lundbreck.

Many Interests

Centre at Macleod

Macleod, Alta., September 3rd.—The influx of new settlers into the Macleod district during the present season is proving in excess of all early calculations and is acting as a powerful stimulus to general business. Rapid progress is in evidence in track laying of the Canadian Northern now approaching Macleod from the north, the establishment of the railway's divisional headquarters at this point being now assured for the near future. The Western Canada Gas, Light & Power company is laying its great pipe line from Bow Island along the railway's right of way and will pass directly through Macleod, thus assuring an unlimited supply of gas for manufacturing and domestic purposes.

Wanted

A good smart, strong boy, about 15 or 16 years of age, to learn the printing trade. Must be willing and energetic. Apply at "Blairmore Enterprise."

Runing up and down stairs, sweeping and heading over making beds will not make a woman healthy or beautiful. She must get out doors, walk a mile or two every day and take Chamberlain's Tablets to improve her digestion and regulate her bowels. For sale by all dealers.

A RARE OPPORTUNITY FOR LIVE INVESTORS

Lake City

Is the name of the Western Terminal Point of the proposed Crow's Nest Pass Electric Railway and is already tapped by the Pass line of the C. P. R., while the G. N. R. has already approached to within a few score of miles and must eventually pass through this admirably located town.

Lake City

Is located by the shore of Crow's Nest Lake, only a few miles east of the provincial boundary between Alberta and British Columbia, and just north of the international line. In reality, it is at the top of Canada where the majestic Rockies tower in serene magnificence over great chasms and numerous fords, reflecting their presence on the waters of this beautiful lake. Here also are afforded the very best tasks for the daring mountain climber and for huntman who desires to outlive the quiet ways of the Rocky Mountain goat, sheep, deer or elk, which are the monarchy thereon. In close proximity are numerous timber, mineral and fuel resources, development of which is now in its initial stages. These resources include gold, quartz, coal, iron and pulp wood. Crow's Nest Lake has long been looked upon with promise as an admirable location for health and tourist resorts, and but now this promise is being realized. Plans for hotels, etc. are being arranged, as well as boat houses, and the most modern pleasure yachts will soon glide over the surface of this beautiful lake.

But a few weeks ago lots were placed on the market, and the agents have had their hands full attending to purchasers. Prices run from \$150 up. For further particulars apply to the agents:

His Chance

What do you men know of women's work? I recently queried the lady orator. There is a man here, she continued, folding her arms, that has day after day got up in the morning and gone quietly downstairs, made the fire, cooked his own breakfast, sewed the missing buttons on the children's clothes, cleaned the pots and kettles, and swept the kitchen. If there is such a man in this audience, let him rise up. I should like to see him. In the rear of the hall a mild-looking man in spectacles in obedience to the summons, timidly arose. He was the husband of the eloquent speaker. It was the first time he had ever had a chance to assert himself.

When going away from home, or at any change of habit, he is a wise man who numbers among his belongings a bottle of Dr. J. D. Kellogg's Dysentery Cordial. Change of food and water in some strange place where there are no doctors may bring on an attack of dysentery. He then has a standard man at hand with which to cope with the disorder, and moreover he can successfully fight the ailment and subdue it.

Worthy of Sherlock Holmes
Tommy's mother had taken him to church to hear the evening sermon, and they occupied seats in the gallery. Tommy tried not to pay attention to wander from the preacher, but it did. He seemed to be particularly interested in a family who sat in front of him, and when the sermon was about half over he whispered to his mother—Mamma, I never saw those people before. I know their names. Hush dear! But I do, persisted Tommy. Their name's Hill. How do you know? Every time the preacher says his text, "I will lift up mine eyes to the hills," those two big girls look at each other and smile. Subsequent inquiry proved that Tommy was quite correct.

Father Bernard Vaughan gave some advice to young men in a humorous address.

Popularity, popularity among the ladies, is a great help to any young man, said he, and turn nothing like generosity to make a young man popular.

I heard a lady praising a young man the other evening.

He is so generous, she said. He takes neither and no out to dinner nearly every week. We date on him.

Then she smiled and added: In fact, we table d'hôte on him.

For arguing that our world is only one of many, Giordano Bruno was burned to death in Rome in 1600.

Not Always

What is your name? asked the new teacher, as he took his class. My name's Bill, but my wife's name's Billious. I ought to say Billious—Brooklyn Eagle.

Put Off

Borrow—Say, old man, I'm badly in need of a V or two.

Holditie—Well, you'll find plenty of them in the dictionary.

A WINNING START

A Perfectly Digested Breakfast Makes Nerve Force for the Day

Everything goes wrong if the breakfast lies in your stomach like a mud pie. What you eat does harm if you can't digest it—it turns to poison.

A bright lady teacher found this to be true, even of an ordinary light breakfast of eggs and toast. She says:

"Two years ago I contracted a very annoying form of indigestion. My stomach was in such condition that a simple breakfast of fruit, toast and eggs gave me great distress."

"It was slow to believe that trouble could come from such a simple diet but finally had to give it up—and found a great change upon a cup of hot Postum and Grape-Nuts with cream."

"I have been a teacher for several years and find that my easily digested breakfast means a saving of nervous force for the entire day. My gain of ten pounds in weight also causes me to want to testify to the value of Grape-Nuts."

"Grape-Nuts holds first rank at our table."

Name given by Canadian Postum Co., Windsor, Ont.

There's a reason "Read the little book, 'The Road to Wellville,' in 15c.

Ever read the above letter? A new one appears from time to time. They are genuine, true and full of human interest.

W. N. U. 203

Daddy's Bedtime Story

The Song Of The First Whippoorwill

JACK and Evelyn told daddy that Dinah was a good deal upset. "She said the chuckwill's widow was calling round here last night," said they. "Daddy, do you know the chuckwill's widow?" "There," said daddy, "just listen. I think you can hear it calling now."

Over in the woods beyond the house could be heard a voice which seemed to say quite plainly: "Whippoorwill!"

"What is it, daddy?" the children cried. "Why does it want Will whippoor?" "My dears, if you could see children among those trees you would very likely see a little bird no larger than a robin and with mottled brown, black, buff, gray and white feathers—a little bird that is so nearly the same color as the branch or the stone on which he sits that you would scarcely notice him."

"Every now and then he opens his mouth and gives the cry which you have just heard."

"The whippoorwill fly about at night catching insects that would otherwise annoy us. The chuckwill's widow and the whippoorwill are birds that look so much alike and make so nearly the same cry that one sometimes is mistakenly called by the other's name."

"When I was a boy I asked grandfather why the whippoorwill was so down on poor Will."

"Grandfather said: 'Once there was a bad boy named Will who stole the eggs out of the nests of birds, and one day he found two dull white eggs on the ground. They were marked with lilac and had gray spots on them. The boy picked them up and started home with them in his hat. He had not gone far when a bird caught up with him and cried so piteously that he could not help keeping the eggs where he was. He only hurried faster. The father bird soon joined the mother, and both of them begged him to give them back the eggs. But he wouldn't.'

"All that night outside the house in which he lived voices were heard saying whippoorwill till all the neighbors wondered what particularly naughty thing naughty Will had been doing."

"And next day at school Will did not know his lesson, and the schoolmaster whipped him, and that night his father whipped him and so on till he was killed and never seen the bird's eggs. The whippoorwill came so thick and fast that they did him good. He let the birds' nests alone after that."

"And grandfather said he was only sorry there wasn't a whippoorwill like that for every bad boy who robbed birds' nests."

HOW POPLAR GROWS

Rate of Growth Studied in Canada and United States

The aspen poplar, frequently spoken of as the white poplar, is one of the most common trees all over Canada and the United States. It is particularly common in the portion of the Dominion east of the Rocky Mountains. In many parts of the Dominion it forms quite extensive forests, especially in districts that have been burned over. This fact gives it a place of some importance in the forestry of the Dominion, although it is one of the inferior woods.

Some years ago (the 1902) the Forestry Branch of the Department of the Interior made a careful survey of the Turtle Mountain reserve in Southern Manitoba, on which this poplar is by all odds the most plentiful tree. The results of the investigation on the basis of data collected during this survey, it was estimated that, if the poplar were allowed to grow to the age of forty years, there would be an average growth, for the whole of that time, of one cord per acre on a fully stocked acre. At the end of that time there would be standing on each acre about 800 trees, of an average height of 45 feet and an average diameter at 4½ feet above the ground of 8 inches. This would yield some 40 cords of wood.

Recently the United States Forest Service published their Bulletin No. 33, entitled "The Aspens," and it is interesting to note that their results closely agree with the figures made out by the Canadian survey. Volume tables given at the conclusion of this bulletin show that trees of the height and diameter given above will each yield between one twentieth and one twenty-fifth of a cord of wood apiece. Thus the 800 acres would give somewhere between thirty-four and forty-two cords of wood.

The average value of the wood of two amounts gives thirty-eight cords, a figure nearly the same as that obtained by the Canadian survey.

As there are 55,000 acres in the Turtle Mountain reserve that are capable of growing timber, it is a reasonable inference that the reserve may be counted on to produce 35,000 cords of wood per year.

At the low rate of \$1 per cord on the stump, this would mean an annual revenue to the state of \$35,000. Or, to take another point of view it would give to each inhabitant of the electoral district of Souris almost two cords of wood per year.

For a Late Crop

Rev. John B. Craft was conducting a series of meetings in a rural neighborhood of southwest Virginia. One night he was trying to bring the necessity of early embracing a religious hope bear upon his congregation. Said he, "We'll just illustrate. You begin in February or March to prepare the ground for planting out your spring crop. You plant in April to be on time. Suppose you neglect this time. May will be too late and you will answer. Let the work go undone till June, then what will you do? You say 'Too late!' and will cry."

Just now it is buckwheat, called out an older farmer from the rear seat. The preacher sat down.—National Monthly.

When Greek meets Greek—what then asked the teacher.

What little Johnny promptly replied: more than a year or two.

Good Reason
As the train whirled through the beautiful valley, the inquisitive traveler, leaning back in his seat, gazed out of the window to get a better view of the scenery.

His head laid back can't you? shouted the conductor.

Why? "You won't damage any of the ironwork on the bridge."

Courtesy
Misses Jane, what do you mean by having six blouses out drying on the line? "I'm just hanging my daughter's coat with two a week."

Jane—Well, you see, mum, Miss Matilda is coming to a bank clerk, and she's coming a weep.

The Schoolmaster Whipped Will.

MOONEY'S BISCUITS ARE THINNER

That makes them neater, crisper, daintier, more appetizing: The one biscuit good enough to take the place of your own baking. Fresh as the biscuits from your own oven. Think what that means! Freedom from a broiling kitchen—leisure on the porch or in the parlor. Time to do the little knock-knacks that have been neglected.

MOONEY'S PERFECTION SODA BISCUITS

Are the creamiest, crispest crackers made.

They are baked in the best sanitary factory in Winnipeg—right at your very door.

Use MOONEY'S and be sure of a biscuit that is absolutely fresh; a biscuit that will satisfy the family,

In tempting packages or sealed tins—as you prefer.

"LET MOONEY DO IT"

Conductor (to countryman)—If you saw him picking the gentleman's pocket, why didn't you interfere?

Countryman—I tried to, but he was too fast. Beware of Pickpockets, and I was scared too.

And so this is the end, said the hero, as he bent over the form of the dying heroine, while the orchestra played soft, sad music.

Thank heaven for that exclaimed a pathetic voice from the gallery.

Orator—I thought your paper was friendly to me.

Editor—So it is. What's the matter?

Orator—I made a speech at the dinner last night and you didn't print a line of it.

Editor—Well, what further proof do you want?

Do you keep football requisites here? asked a gloomy-browed young man the other day, as he entered a sporting-goods store.

Yes.

Then you may wrap me up a bottle of snuff, a paper of court-plaster, and an arm-sling. I am going to play in a match this afternoon.

You'd better fumigate these bills before you go home. They may be covered with microbes, said the druggist one Saturday evening as he handed a few faded, worn and soiled silver certificates to his clerk.

No danger from that source, responded the latter, a microbe could not live on a drug-clerk's salary.

A Pill That Lightens Life.—To the man who is a victim of indigestion the transaction of business becomes an added misery. He cannot concentrate his mind upon his tasks and lose vision attend him. To such a man Parolee's Vegetable Pills offer relief.

A course of treatment, according to directions, will convince him of their great excellence. They are confidently recommended because they will do all that is claimed for them.

Enslaved (elderly hearse)—Do you think the Baron regards me seriously?

Rosa—Seriously? Why, my dear every time I mention you he looks positively sad.

Real Estate Agent—You'll have some very fine neighbors here!

Buyer—is that so?

Real Estate Agent—Yes, with your auto you'll have no trouble getting them to ride with you.—Chicago News.

Confidence
Billings seems to have great confidence in his wife.

She—If that is how you wish me to believe you came out of the place got to give you a tag to wear. How careless of him.

The New Perfection Toaster
Anyone, even a little girl, can make toast on the New Perfection Oil Cook-stove

She will not burn the toast, and she will not burn her fingers either, if she uses the New Perfection Toaster.

For toast or roast For fry or broil For boil or bake

Every dealer has it. Handsomely finished in nickel, with cabinet top, drop shelves, towel racks, etc. Long chimneys, enameled turquoise-blue. Made with 1, 2 and 3 burners. Free Cook-Book with every stove. Cook-Book also given to anyone sending 5 cents to cover mailing cost.

Sick headaches—neuralgic headaches—splitting, blinding headaches—all vanish when you take Na-Dru-Co Headache Waters

They do not contain phenacetin, acetanilid, morphine, opium or any other dangerous drug. A box at your Druggist's.

NATIONAL DRUG & CHEMICAL CO. OF CANADA, LIMITED.

Investigations made over Europe seem to justify the belief that the damage by lightning, in the cities particularly, has decreased to a very marked degree in recent years, and it is explained by the presence of electric wires, which act as a protection in diverting the electric bolts. As the wires are put underground it is expected that there will be noticed a great increase in the amount of damage by lightning and a return will be generally made to the use of lightning rods.

She Was Wise
He—I handed in my resignation at the club last night.

She—If that is how you wish me to believe you came out of the place got to give you a tag to wear. How careless of him.

An Oversight
J. Barker Surface—See here, you. I just now paid my poll tax and your young man gave me a receipt for a dog tag.

The Man at the Window—And forgot to give you a tag to wear. How careless of him.

He—I handed in my resignation at the club last night.

The Picture

He "Played Fair" After

ALL

By CLARISSA MACKIE

Ralph Evans lifted the drape from the easel and gazed long and earnestly at the picture. There was a bitter smile on his thin lips as he hummed a little tune under his breath.

It was an excellent portrait of Justin Moore—a speaking likeness, one might say, of the artist's closest friend. Justin was handsome, with a beauty of feature that barely escaped effacement, but the mouth was strong enough to justify the penetrating gray eyes, the noble forehead with its sweep of dark hair and the resolute chin.

The play of it was that the beauty and magnetism of the face were hidden. Severely, Justin Moore had died a year ago and the portrait, commenced when he was vigorous with health, had just been completed.

Alicia Moore, Justin's beautiful young widow, was coming to view it for the first time. During the period of her deep grief at the sudden loss of her husband Justin's friend had stood at her right hand throughout the work on it. It was Ralph Evans who had attended to all the harassing details connected with the work and event. It was he who had been named as executor of the will and who had been the cause of the desire of his dead friend with infinite tact and sympathy.

And Alicia, who had no near relatives in the world, had been turned to her husband's friend with a pitiful yearning for sympathy and understanding in her sorrow. To Ralph Evans she had turned for sympathy and understanding in her sorrow. To Ralph Evans she had turned for sympathy and understanding in her sorrow.

As he stood there, his eyes meeting those of the portrait with a certain defiance, he was thinking of Alicia Moore. He could see her, tall and slender, in her black dress, every feature of her beloved, choking back tears of grief at the familiar smile in the gray eyes and the winning curve of Justin's gentle mouth.

A pang of agony struck to deep as he thought of these things. Alicia was young and beautiful, and he had loved her long and hopelessly. With that speaking likeness of her dead husband ever before her, would she, could she, forget Justin? Could he, Ralph, ever win her?

His heart answered "No." The door of the studio opened, and Alicia Moore entered, trailing her black draperies over the rug. With a quick, graceful gesture she tossed back the fringe and glanced at the picture.

"You have finished Mr. Evans' portrait," she said.

"I am ready for inspection," he replied. "I hope you will like it," he said, looking at her with a smile.

"For a few moments the studio in rapid silence before it. Then tears filled his eyes, and he bowed his head and pressed his hand to his forehead.

"How like him," he said. "You have caught all the strength and nobility of expression. This is wonderful. Poor—poor Justin!" The tears dropped unheeded on her cheeks.

Ralph struggled a desire to comfort her—to tell her that joy and happiness were retained for her; that she was too young to spend the years in grieving over one who could not be recalled.

"It is the next thing to seeing Justin in the flesh," she murmured softly. "It shall hang in the library. Do you know, Ralph, you have made me very happy?"

She turned to him with outstretched hand and trembling lips.

"The hands that caught her gripped them. Something in his manner—his smile and the bright darkness of his eyes—startled her, and she withdrew her hands with sudden reserve.

"You are quick to note," he said. "You can read it to me at once?" he asked.

"This afternoon if you wish. I will send it by Saturday. He will hang it."

"Thank you so much. No one but Justin's friend could have caught these intimate expressions," she smiled brightly at him through her tears.

After he had placed her in the library and had returned to the studio and looked the door Ralph Evans went to the picture and studied it with dark, inscrutable eyes.

Suddenly he caught up palette and brush and added a few deft strokes to the picture. The eyes of Justin Moore. Then he stepped back and gazed dubiously at the portrait.

It was still the portrait of Justin

Moore, but deprived of its nobility and strength and sweet gentility. It was the portrait of Justin Moore with every weak point emphasized.

Late that evening Ralph Evans sent the portrait up to the handsome home where Justin Moore would dwell.

A week later he received a note from Alicia. "Come and dine with me," she wrote. "Bring your violin and we will have some music."

He went. Alicia, pale and quiet with motherly address in her beautiful eyes, made him welcome in her library. His quick glance noted that Justin's picture hung over the mantel and Alicia's chair had been wheeled in front of it.

"You are not looking so well," he remarked gravely.

"I have never so low spirited," she confessed.

Evans smiled. A familiar saying of Justin Moore's returned to him with startling suddenness. "A man who can't play fair better keep out of the game."

Had he played fair? Her hand clutched upon the table until the knuckles showed white.

"You are the portrait?" he asked deliberately.

At first she flushed, and then her face went pale. When she spoke it was in a cold, hard tone that was unlike any utterance that he had ever heard from her gentle lips.

"You are ever considering the difference between a living face and its pictured presentment? The first shows such varying expressions that the real character of the face is never fully revealed."

She paused breathlessly and looked at him with wide, anguished eyes.

"When King Kalaka of Hawaii visited Japan many years ago he was very anxious to exhibit to the Japanese his famous royal feather cloak."

It was out of the question to wear it draped over his shoulder, as was the ancient fashion. Finally it was decided to let Robert, one of his attendants, wear it.

William M. Armstrong, the king's attorney general, said: "This additional service dignified Robert, who now, according to a confidential statement made to his Japanese attendants, was 'keeper of the royal standard,' 'groom of the feather cloak' and 'valet in ordinary.'"

By the way to Tokyo, the king's staff suddenly sent Robert sitting in state in the luggage car dressed in a silk hat, white gloves and with the gorgeous royal cloak hanging over his shoulders, the tableau being completed by a group of Japanese attendants who were kneeling before him in admiration.

"But Robert was scarcely equal to the dignity that was his," he said. "He was so much in the presence of the palace assigned to them and discovered their abundance of wine and food. If Justin it was really like that I shall hate his memory."

She leaned against the tall back of a chair and looked at him with wet, questioning eyes.

Ralph Evans hesitated. He glanced from the sinister portrait on the wall to the anguished countenance of the young widow who it was really like the face of a villain. But it is the picture of the husband that I loved and still it is not the picture of what I believed him to be. Can't you understand that?"

"You are mortally sensitive, Alicia," he said gently. "The picture is badly hung. May I come tomorrow and rearrange it?"

"You think that is the trouble?" she asked eagerly. "Oh, I hope it is—only that."

"You will find that I am right," he said confidently. "Now come and look over the music I have brought. After dinner we will have some Chopin."

The next day when Ralph called he was welcomed to find that Alicia was out. He was glad that he was to have a chance to himself for a brief period before her return.

It was the work of a few moments to put away a small painting kit and behind locked doors to restore Justin Moore's face to its original likeness.

The face of the artist changed as he painted. Barks "was fed away and his head bent back so that his mouth might be stooped before his pictured rival rejuvenated, reincarnated, more manly—what it had always been in life and what it was now."

"You think that is the trouble?" she asked eagerly. "Oh, I hope it is—only that."

"You will find that I am right," he said confidently. "Now come and look over the music I have brought. After dinner we will have some Chopin."

The next day when Ralph called he was welcomed to find that Alicia was out. He was glad that he was to have a chance to himself for a brief period before her return.

It was the work of a few moments to put away a small painting kit and behind locked doors to restore Justin Moore's face to its original likeness.

The face of the artist changed as he painted. Barks "was fed away and his head bent back so that his mouth might be stooped before his pictured rival rejuvenated, reincarnated, more manly—what it had always been in life and what it was now."

"You think that is the trouble?" she asked eagerly. "Oh, I hope it is—only that."

"You will find that I am right," he said confidently. "Now come and look over the music I have brought. After dinner we will have some Chopin."

BRIDGE OF THE SEAS.

The Isthmus From Which Every Other Nation Has Been Named.

"Bridges of the Seas" is the striking name which Pliny gives to the narrow isthmus which connects the Gulf of Corinth with the Argos sea. It is one of the most interesting strips of soil on the five continents.

In the isthmus par excellence of all lands, for from its Greek name, Isthmia, every other isthmus has been named.

The ancients were not good sailors. They never went by sea when they could conveniently go by land, and to cross this narrow neck of land, only four miles wide, saved them many a weary league of sailing around a stormy coast in going from the Peloponnese to Attica and indeed from Europe to Asia.

The shortest route of Attica was especially dangerous, and an old proverb used to run, "When you are rounding Cape Malia forget all you have at home." Indeed, navigation in these seas was almost wholly abandoned in the winter months, and we remember that in the graphic account of St. Paul's adventures the apostle is said to have wintered in the Cretan harbor of Fair Haven. Through disregarding this advice, winter came to ship and crew and prisoners alike.

No wonder, then, that the isthmus, which the ancient city of Corinth dominated, became at once the busiest and perhaps the most notable strip of land which the world knew. More battles have been fought, more dramas have been enacted on its shores, and in all probability than in any other spot on the earth's surface—Christie Herald.

A ROYAL FEATHER CLOAK. Kalaka Couldn't Wear It, and His Groom Disgraced It.

When King Kalaka of Hawaii visited Japan many years ago he was very anxious to exhibit to the Japanese his famous royal feather cloak.

It was out of the question to wear it draped over his shoulder, as was the ancient fashion. Finally it was decided to let Robert, one of his attendants, wear it.

William M. Armstrong, the king's attorney general, said: "This additional service dignified Robert, who now, according to a confidential statement made to his Japanese attendants, was 'keeper of the royal standard,' 'groom of the feather cloak' and 'valet in ordinary.'"

By the way to Tokyo, the king's staff suddenly sent Robert sitting in state in the luggage car dressed in a silk hat, white gloves and with the gorgeous royal cloak hanging over his shoulders, the tableau being completed by a group of Japanese attendants who were kneeling before him in admiration.

"But Robert was scarcely equal to the dignity that was his," he said. "He was so much in the presence of the palace assigned to them and discovered their abundance of wine and food. If Justin it was really like that I shall hate his memory."

She leaned against the tall back of a chair and looked at him with wet, questioning eyes.

Ralph Evans hesitated. He glanced from the sinister portrait on the wall to the anguished countenance of the young widow who it was really like the face of a villain. But it is the picture of the husband that I loved and still it is not the picture of what I believed him to be. Can't you understand that?"

"You are mortally sensitive, Alicia," he said gently. "The picture is badly hung. May I come tomorrow and rearrange it?"

"You think that is the trouble?" she asked eagerly. "Oh, I hope it is—only that."

"You will find that I am right," he said confidently. "Now come and look over the music I have brought. After dinner we will have some Chopin."

The next day when Ralph called he was welcomed to find that Alicia was out. He was glad that he was to have a chance to himself for a brief period before her return.

It was the work of a few moments to put away a small painting kit and behind locked doors to restore Justin Moore's face to its original likeness.

The face of the artist changed as he painted. Barks "was fed away and his head bent back so that his mouth might be stooped before his pictured rival rejuvenated, reincarnated, more manly—what it had always been in life and what it was now."

THE PHONOGRAPH.

His Invention Was the Result of a Cut on the Finger.

An accident—a cut on the finger—caused Edison to invent the phonograph or talking machine.

It was one of the most interesting strips of soil on the five continents.

In the isthmus par excellence of all lands, for from its Greek name, Isthmia, every other isthmus has been named.

The ancients were not good sailors. They never went by sea when they could conveniently go by land, and to cross this narrow neck of land, only four miles wide, saved them many a weary league of sailing around a stormy coast in going from the Peloponnese to Attica and indeed from Europe to Asia.

The shortest route of Attica was especially dangerous, and an old proverb used to run, "When you are rounding Cape Malia forget all you have at home." ARTIFICIAL PERFUMES.

It is a Wise Flower That Knows Its Own Scent.

There are few perfumes today that cannot be made from chemicals, synthetically, as the chemists call it. Formerly all perfumes were extracted from flowers, fruits, spices, woods or other vegetable and animal substances.

The first perfume to be imitated was vanilla, in 1826. Heliotropine followed, being obtained by oxidation of a byproduct of camphor.

Periploin is one of the most freely used constituents of perfumes. It is a near relation of turpentine. With this, a little oil and a certain amount of alcohol, a perfume can be made that can stand up to the test of the most exacting connoisseurs.

Artificial violet is a combination of citral and essence extracted from lemon, orange, ylang-ylang or lemon verbena, with common acetone, a substance very like pyroxylic acid.

No chemist has been able to counterfeits the odor of the rose. The perfume called musk is made from toluene, a byproduct of benzine and coal tar. This is changed to a complex carburett, which is then mixed with sulphuric acid, is diluted and sold as musk.

Most of the cheap perfumes are imitations, and they are almost always inferior to the flower extracts. So it might properly be said that it is a wise flower that knows its own perfume.—New York Times.

A ROYAL FEATHER CLOAK. Kalaka Couldn't Wear It, and His Groom Disgraced It.

When King Kalaka of Hawaii visited Japan many years ago he was very anxious to exhibit to the Japanese his famous royal feather cloak.

It was out of the question to wear it draped over his shoulder, as was the ancient fashion. Finally it was decided to let Robert, one of his attendants, wear it.

William M. Armstrong, the king's attorney general, said: "This additional service dignified Robert, who now, according to a confidential statement made to his Japanese attendants, was 'keeper of the royal standard,' 'groom of the feather cloak' and 'valet in ordinary.'"

By the way to Tokyo, the king's staff suddenly sent Robert sitting in state in the luggage car dressed in a silk hat, white gloves and with the gorgeous royal cloak hanging over his shoulders, the tableau being completed by a group of Japanese attendants who were kneeling before him in admiration.

"But Robert was scarcely equal to the dignity that was his," he said. "He was so much in the presence of the palace assigned to them and discovered their abundance of wine and food. If Justin it was really like that I shall hate his memory."

She leaned against the tall back of a chair and looked at him with wet, questioning eyes.

Cookery Points

Luncheon Asparagus.

Prepare two large slices of toast by slicing lengthwise of the loaf. The slices should be uniform in size and thickness. Toast a nice even brown on both sides. Lay one slice on the heated dish and moisten slightly with a little of this water the asparagus is boiled in. On the toast arrange a layer of nicely boiled asparagus with the tough ends cut off. Cover with a cream sauce to which you have added a little lemon juice and two beaten egg yolks. Place the second slice on the asparagus and add another layer of asparagus and the sauce. Decorate the border with parsley and potato chips or, when served as a luncheon dish, serve thin, crisp brown beaef slices with it. Fresh green peas boiled in salted water and drained, seasoned and a little butter added make a suitable combination and a nice border. Boiled rice or spaghetti increases the value of the dish when either takes the place of meat.

Two Thousand Years Ago. It was Established in the Orient Over Two Thousand Years Ago.

One must go to the Orient and look back more than 2,000 years to find the first animal hospital known.

The famous Buddhist emperor of India, Asoka, whose reign lasted from 272 B. C. to 232 B. C. Asoka was probably the earliest to establish a hospital for the treatment of animals.

One of the best known Asoka was a true humanitarian as well as a most powerful sovereign and, although ruling a vast domain, became deeply impressed by the horror of warfare.

He gave up his desire for conquest, and the rock inscriptions, which still extant, record such beneficent edicts of his as the counseling of planting shade trees, the digging of wells, sending out of missionaries, the appointment of special officers to supervise charities, the establishing of hospitals for human and animal.

One of the most interesting of the last remaining of Asoka's hospitals was devoted to animals. It covered twenty-five acres and was divided into groups of wards and cells for the accommodation of the patients. When an animal was sick or injured its master had only to bring it to the hospital where it was cared for without regard to the caste of its owner and where, if necessary, it found an asylum in old age.

Where Name Was Originated. Perhaps few people know that the term "asylum" is due to a watering place originated with the report of that name in Belgium, which a hundred years ago was the best known resorts in Europe. Its name has continued to a great extent up to the present time, though the high play that once made it famous has not now allowed

Happenings in and Around Frank

J. Miller, went to Calgary on Tuesday to attend the Stampede. The school board are still seeking another teacher to fill the vacancy created by Miss McRury.

Rev. W. T. Young, returned on Thursday from Claresholm, where he had been attending District meeting.

Mr. and Mrs. C. Richardson went up to Calgary on Sunday night to attend the frontier days' celebration.

Rev. W. T. Young will conduct service at the Hillcrest church at 4 p.m. on Sunday next, and every Sunday thereafter.

Mr. Mackay, our school principal, has returned from an extended holiday in the east, and has re-entered upon his duties.

The farewell ball given at the Rocky Mountain Sanatorium hotel on Friday night was largely attended and the affair was most enjoyable.

Mr. Kras. Vinet, manager of the Sanatorium hotel, left for Calgary on Saturday last, where he is to take charge of the Sherman hotel. Mr. Vinet retires from the management of the hotel on the 15th.

The Presbyterians have given over the Hillcrest mission work to the Methodists in exchange for the Cowley mission, and service was held there on Sunday evening last by the Rev. W. T. Young, of Frank.

J. Tompkins, or some time clerk at the Rocky Mountain Sanatorium, has received appointment to succeed C. Vinet as manager of the hotel, and assumes charge on September 15th.

Many were greatly surprised on Saturday last to find that the custom house, which had done some good service for so long a time under the efficient management of A. C. Beach, was being moved to Blairmore. There are numerous rumors floating, one to the effect that Mr. Beach was being thrown out of a job without forewarning, another that some party heeler of The Pass who had never done anything for the public service, and whose ability and qualifications were never better than those of Mr. Beach, would be the latter's successor in office at Blairmore, etc., etc. In any case no one can say but that the service rendered by Mr. Beach was always honest and efficient and should entitle him to a substantial annual stipend in his few remaining years.

Hillcrest Happenings

Mrs. Frank Smith left Hillcrest on Saturday evening last for Calgary, where she is paying a visit to some friends there. She will also be a Stampede visitor.

The C.P.R. have a gang busy in the locality of Hillcrest just now repairing and fixing up the trestles and culverts for the winter. They are replacing the old wooden culvert between the Frank yard and the slide with a concrete structure, which work is practically completed.

For the past week the Crow's Nest Pass has been experiencing the most disagreeable weather. For several days the sun has not been seen at all and the drizzling rain and cutting wind did not improve matters at all. We are all living in hopes of having a real summer at some time or another, as we were entirely misled in that respect this season.

A party composed of Mrs. McGowan, of Frank, Miss Armstrong of Hillcrest, Miss Berry of Frank and Messrs. Hughes and Bell of Passburg took a trip to the South Fork on Sunday last, with the intention of spending a day or so fishing. The rainy weather made them alter their arrangements however and they returned to town the same day they set out.

Messrs. Adams, Barber and Wallace were out for a few days hunting this week, leaving Hillcrest on Saturday evening for Bear Creek and returning Tuesday morning. Several reports have reached town that bear are plentiful in that locality and these sportsmen went out to investigate. On account of the

very unpleasant weather they were not out around as much as they had intended, and were forced to return to camp empty handed. During their trip it was raining or falling practically the whole time and the inclement weather experienced is probably the only reason that for the first time these intrepid hunters returned to civilization without at least one animal to their credit.

A. Wicks, the C.P.R. coal assayer here, is leaving Hillcrest at the end of the week and will be accompanied by J. Leigh of the Co-operative Society here. They are leaving for Vancouver where it is his intention to take the boat for Australia. Mr. Wicks' departure is deeply regretted by all interested in the fortunes of the Hillcrest football club for as a full back he had no equal in The Pass. Hillcrest people wish these two adventurers all prosperity in their new life.

The coal company received another two car loads of machinery from the East last week, containing motors for the pumps and fan and an engine for their new generator respectively. So rapidly are they progressing at the development work that the number of men employed has practically doubled since the beginning of the year and new hands are continually being taken on. The output is increasing month by month and the favorable effect of this is felt by all in town, particularly the tradespeople.

A dance was held in the Union hall at Hillcrest on Saturday last, under the auspices of the local union. A large number took advantage of the first dance held here for two or three months, and all report a very enjoyable time. The music was furnished by the Hillcrest orchestra, and was first-class in every respect. This is the first time that the newly formed orchestra has been called to do real work, and their exhibition was all the more pleasing on this account.

The fight held at Bellevue on Labor Day attracted a large crowd of visitors from Hillcrest, and all report the scrap as the best that has been seen in The Pass for many a long day. As the fighting game in this part of the province has received a black eye on account of the poor exhibitions that have been put up for the past two years, this fight may be the means of showing the fighting fraternity through here that fake fights do not draw the crowds that a genuine one will.

The dangerous state of the bridge between Hillcrest station and the town of Hillcrest is causing much sarcastic comment at the expense of the department of public works. The bridge, a wooden structure, is extremely shaky and with an empty wagon loaded with lumber, it is passing over it very gingerly. In addition to this the side rail has been torn away on one side and an accident is very probable on a dark night if one is not well acquainted with the road. The bridge should be repaired at once before winter comes on if serious mishaps are to be avoided.

John C. Jones, the vice-president of district 18 of the United Mine Workers of America and the president of the Alberta Federation of Labor, formerly the secretary of the former organization in Hillcrest, is in town for a few days on combined business and pleasure. The pleasure part of his visit consists entirely in his shaking hands with his numerous friends and acquaintances in Hillcrest, for he is an exceedingly busy man just at present. He is leaving town in a few days for Galt, Ont., where he will attend a meeting of the trade and labor organizations of the whole of Canada.

No acceptance of the challenge issued by the Hillcrest football club has yet been received. The ball smoking concert to be held on the occasion of the presentation of the cup and medals is already being looked forward to. At the present writing we are unable to say just when this event will take place, but the probabilities are that it will be on either the 14th or the 17th inst. The league committee are busy selecting an appropriate design for medals for the boys, and it is up to all in town to turn out on the evening and show that their winning the honours for Hillcrest is appreciated by all and that the team is backed by the good wishes of every one in Hillcrest.

Here and There

The C.P.R. bridge crossing the South Fork river, near Cowley is nearing completion.

Rumor has it that Rev. Neil McNeill, formerly bishop of St. George's, Newfoundland, later archbishop of Vancouver, and at present archbishop of Toronto, will be the next Canadian cardinal.

The Coleman public school opened last week with the following staff in charge: G. McDonald, principal; Miss J. Home, vice-principal; Misses L. E. Woodhouse, E. A. MacArthur, A. E. Paul, A. W. Ball and G. McDonald.

Happenings in and Around Bellevue

Misses Rogers and Perry are at the Stampede.

Mr. and Mrs. Turner, of Nova Scotia, have settled here.

George Davis and family will move to Fernie on Friday.

Miss Connolly of Spring Creek is visiting in town this week.

Chas. O'Brien is doing some soap-box oratory around town.

Rev. W. T. Young, of Frank, was a visitor in the camp on Thursday.

Robert Connolly is visiting Calgary and taking in the Stampede.

A grand concert will be given in the Methodist church, on pay day.

The Catholic priest from Blairmore held Mass in the school house on Sunday morning.

Mr. Green, of the West Canadian Collieries at Blairmore, was up to the fight on Labor Day.

Mrs. Sames arrived home on Monday night quite sick, and is now under the Doctor's care.

The Bellevue band played at the Presbyterian church social at Blairmore on Saturday night.

Next Sunday evening the Rev. Mr. Irwin will speak on "How to Get Religion Without Being Superstitious."

Will Chappell's "Queen of the Woods" maintained its record in Homer on Labor Day by carrying off two first prizes.

C. M. O'Brien leaves for the Pacific coast this week, where he will carry on propaganda work for the Socialist labor party.

Gill Cousins and Mike Kilday went on a fishing expedition to South Fork on Labor Day and returned with a good catch.

Adam Lorimer went up to Fernie on Sunday to conduct the memorial service held in honor of the late General Booth by the Salvation Army of that place.

A fight which occurred in the bar of the Southern hotel on Monday evening caused the police to request the early closing of the bar, which was promptly complied with.

Miss Dorie Bateman was attacked by a dog on Monday night and had her clothes badly torn, but she escaped with a few scratches. The dog will probably be shot.

The Bellevue band gave a grand dance in the Socialist hall on Labor Day evening. A large crowd attended and a very pleasant time was spent. The Hillcrest orchestra supplied the music.

Fred Padgett, Earnest Fisher and Arnold Varley went out shooting on Labor Day. They returned with one squirrel. It took fifteen charges of buckshot to kill it. Better try fishing next time.

Few, if any medicines have met with Colic, Cholera and Diarrhoea Remedy. The remarkable cures of colic and diarrhoea which it has effected in almost every neighborhood have given it a wide reputation. For sale by all dealers.

At the district meeting of the Methodist church held at Claresholm last week, Rev. W. H. Irwin was delegated to proceed to Toronto in the interest of missionary work in The Pass, and to acquire financial aid for the carrying on of the work.

The Methodist church have taken over the Presbyterian church work at Hillcrest. For the time being the services will be conducted every Sunday afternoon at four o'clock under the direction of the Rev. W. T. Young. An effort is being made to organize a choir and the Hillcrest people are looking forward to a big winter in church activities.

The implicit confidence that many people have in Chamberlain's Colic, Cholera and Diarrhoea Remedy is

Founded on their experience in the use of that remedy and their knowledge of the many remarkable cures of colic, diarrhoea and dysentery that it has effected. For sale by all dealers.

W. J. Cole, manager and secretary of the Bellevue football team, received a notice on Saturday that Michel had protested the game played between Michel and Bellevue teams on Saturday, August 24th, when the latter team played a draw with Michel and won the Brewery cup. The chief grounds for the protest seems to be that the game was called before time was up.

A large crowd witnessed the boxing contest on Labor Day between Freddie Bealle and Louis Britano. All pronounced it an excellent exhibition of the manly art. As was expected Bealle got a clear decision, knocking his opponent out in the ninth round. Quite a number were up from the other camps to take in the fight. The preliminary was also a splendid exhibition.
